

Sitriion Reports

CardioLog Analytics offers many reports and widgets designed for Sitriion social activity within SharePoint portals. You can use these tools to help analyse social adoption, collaboration and engagement levels in your networks.

The following Sitriion reports are available for CardioLog Analytics:

User Reports

- [Influential Users](#) and [User Colleagues](#) - Identify who has the most followers and colleagues in your Sitriion community, and who those colleagues are.
- [Expert Users](#) - Find out which users are being defined as experts by their peers.
- [Total Users](#) - Keep track of the overall sum of Sitriion users in your portal.
- [User Activity](#) - Identify and rank users who actively add content including posts, comments, questions, answers and likes in Sitriion.
- [Activity Log](#) - Learn about the number and kinds of activities carried out by users in Sitriion within any period of time.
- [Inactive Users](#) - Identify which users have not participated actively in Sitriion communities.

Community Reports

- [Community Activity](#) - Learn about the top communities, based on the number of posts, comments, questions, answers and likes each community has acquired.
- [Community Membership Growth Trend](#) - Find out how many people have joined specific Sitriion communities in a specific time frame.

Content Reports

- [Most Popular Posts](#) - Identify the top posts in Sitriion, based on the number of comments and likes a post has received.
- [Most Popular Questions](#) - Identify the most popular questions, based on the amount of answers and likes a question has received.
- [Trending Tags](#) - Identify how frequently specific keywords are being tagged in Sitriion.

Campaign Reports

- [Campaign Center Activity](#) - Find out how many campaigns are being added to Sitriion and identify which are attracting the most ideas, votes and comments.
- [Most Popular Campaigns](#) - Identify the most popular campaigns within Sitriion, ranked by the number of ideas, votes and comments they have acquired.
- [Most Popular Ideas](#) - Identify the most popular ideas based on the number of votes and comments the ideas received.
- [Unique Idea Submitters](#) - Find out which users add the most ideas and attract the most comments.
- [Unique Idea Voters](#) - Find out which users are voting and commenting the most on ideas in Sitriion campaigns.

Note - Collecting data for analysis from your Sitriion community activity requires initial configuration. For more information see "[Sitriion Integration](#)".
