

Product Activation

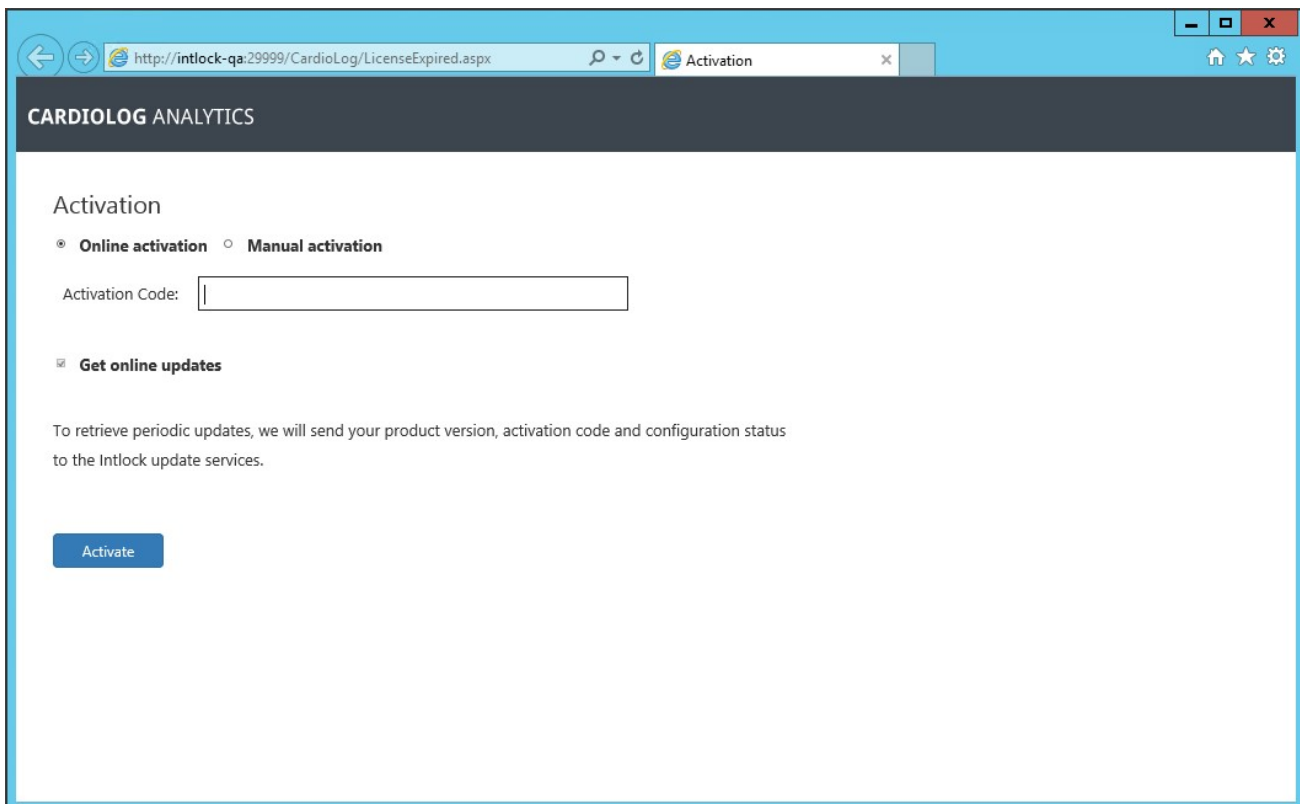

Upon launching CardioLog for the first time, you will be redirected to the Activation page in your web browser. An active internet connection is required for activation.

1. From the Widows **Start** menu, go to **All Programs > CardioLog Analytics > CardioLog Analytics**.
2. In the **Activation** page that opens in your web browser, you will be provided with 2 options for activation: **online** or **manual**

- Online Activation
- Manual Activation

Online Activation

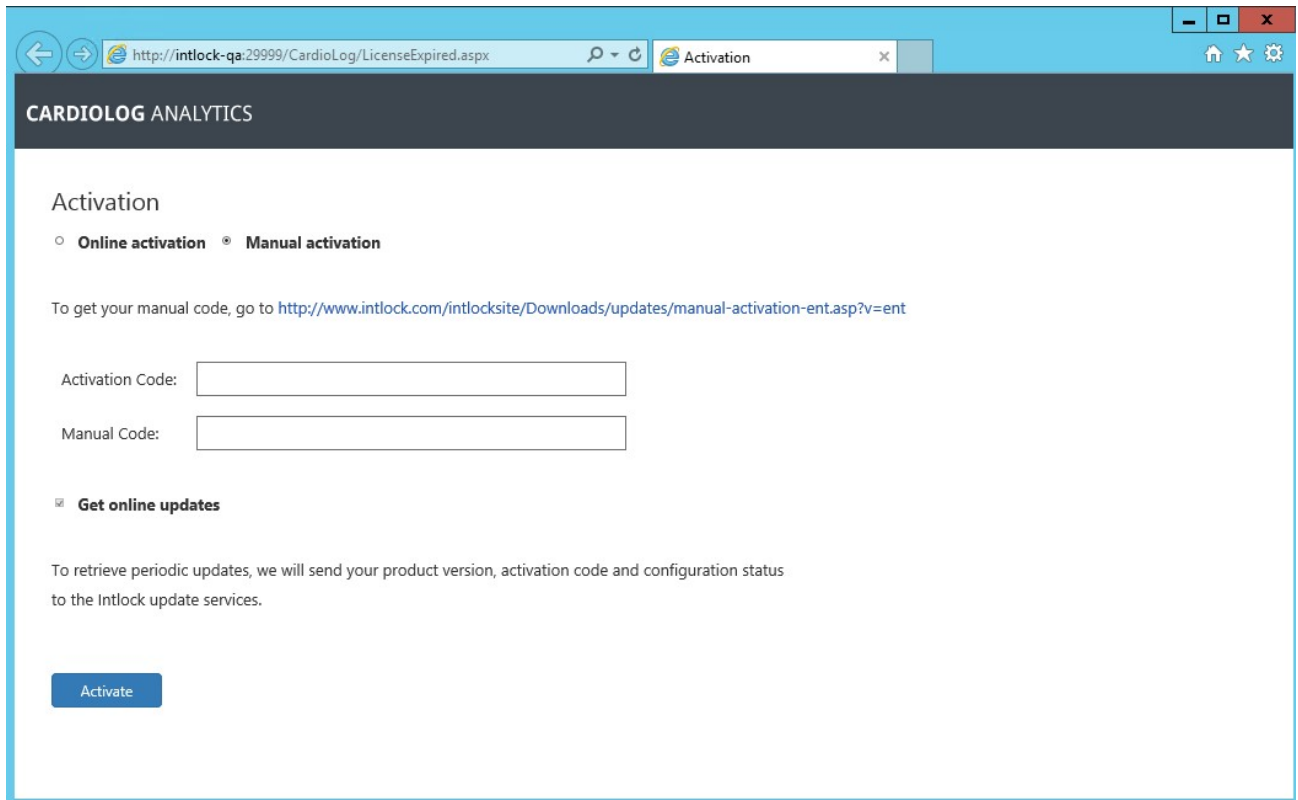

Simply enter the activation code that you received by email, and then click **Activate**.

The screenshot shows a web browser window with the URL `http://intlock-qa:29999/CardioLog/LicenseExpired.aspx`. The page title is "CARDIOLOG ANALYTICS". The main heading is "Activation". There are two radio buttons: "Online activation" (selected) and "Manual activation". Below this is a text input field labeled "Activation Code:". There is a checked checkbox for "Get online updates". Below the checkbox, there is a paragraph: "To retrieve periodic updates, we will send your product version, activation code and configuration status to the Intlock update services." At the bottom left, there is a blue button labeled "Activate".

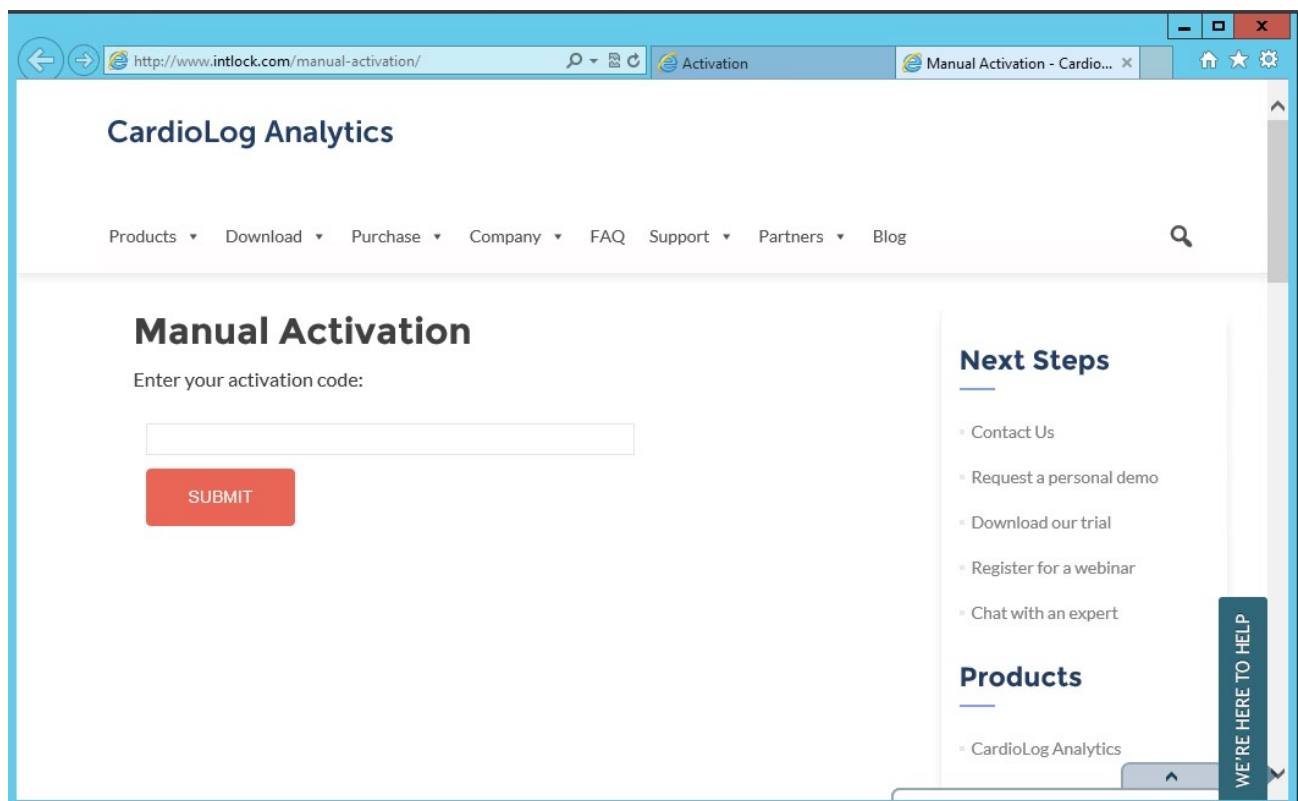

Manual Activation

1. Click on the [provided link](#). An internet connection is required, but this may be performed from any computer connected to the internet.
2. A new internet browser window will open showing the web page **Manual Activation**.

Manual Activation Web Page

3. Enter the activation code that you received by email and click Submit to receive a Manual Code.
4. Go back to the **Manual Activation** page and enter your activation code and the manual code which you now generated. Then click **Activate**.

Manual Activation Code Window
