

Page View Reports

CardioLog ships with a built in set of Page View reports ready to help you understand in detail how often, and for how long your visitors are viewing individual pages on your website. Included are:

- Average Number of Page Views
- Average Page Views by Day of the Week
- Average Page Views by Hour of the Day
- Average Page View Duration
- Events (Page Views by URL)
- Page Views
- Page Views by Page Type
- Recently Viewed
- Top Page View Ratio
